

RESEARCH INTEREST	I am broadly interested in large language models and trustworthy artificial intelligence, focusing on how model structure affects reasoning reliability and how to evaluate and improve large reasoning models.	
EDUCATION	Simon Fraser University	Vancouver, Canada
	<i>Ph.D. in Computer Science</i>	2025 - 2029 (<i>expected</i>)
	• Advisor: Dr. Linyi Li • Research area: Large Reasoning Models and Trustworthy AI	
	Simon Fraser University	Vancouver, Canada
PUBLICATIONS	<i>M.Sc. in Computer Science</i>	2022 - 2024
	The Chinese University of Hong Kong, Shenzhen	Shenzhen, China
	<i>B.Sc. in Mathematics</i>	2018 - 2022
PUBLICATIONS	1. Zhe Wang , Mohamad A. Tayebi. AutoRed: Automated Attack Scenario Generation Framework for Red Teaming of LLMs. <i>IEEE International Conference on Big Data (BigData), Industry & Governance Track</i> , 2024.	
INTERNSHIPS	RBC Borealis Vancouver, Canada	2026.01 – Present
	• Researching the relationship between transformer model depth and multi-hop reasoning capabilities, investigating how hierarchical layer structures support compositional task solving.	
	SAP Canada Inc. Vancouver, Canada	2024.09 – 2025.08
	• Post-trained 8B-parameter language models (SFT, LoRA, DPO, GRPO) for software license-permission extraction and classification. • Developed a Retrieval-Augmented Generation (RAG) system using LangGraph, fully integrated with SAP AI Core for domain-specific retrieval. • Improved structured output reliability by transitioning from JSON prompting to function-calling with Pydantic, reducing schema violations and hallucinations. • Deployed 4-bit and 8-bit quantized models with Ollama on GPU (GCP) and CPU to support lightweight demos.	
SKILLS	Hanglok-Tech Shenzhen, China	2023.07 – 2023.09
	• Improved robotic control performance in Panda-Gym using DDPG (Stable Baselines3). • Applied GAIL in Isaac Gym for real-time humanoid motion imitation.	
SKILLS	Programming: Python	
	Machine Learning: PyTorch, Transformers, scikit-learn	
	LLM Training: SFT, LoRA, DPO, GRPO, RLHF	
	Tools: NumPy, Pandas, SciPy, Matplotlib
